DAY 04 | 10 MAR'27 | AGRA

Morning after breakfast proceed for sightseeing tour of Agra visiting **Taj Mahal**: Shahjahan, who was a passionate builder, now decided to erect a memorial marble that the world would never forget. The site was also chosen because it was located on a bend in the river, and so could be seen from Shahjahan's personal palace in Agra Fort, further upstream. The construction of the Taj Mahal started in 1631. It took 20,000 artisans 22 years to complete this poignant mausoleum that blends subtlety with grandeur, and a massive overall design with immaculately intricate execution.

Agra Fort: The construction of the Agra Fort was begun by Emperor Akbar in 1565. Its massive walls stretch for 2½ km and are surrounded by a moat over 10 metres wide. The fort is really a city within a city, which embraces the Moti Masjid, the Diwan-i-Am or the Hall of Public Audiences, the Diwan-i-Khas or the Hall of Private Audiences, the Octagonal Tower, Jehangir's Palace and many more monuments.

Itmad-Ud-Daula: This tomb was built in 1622 for Ghiyas Beg, father of Empress Noor-Jahan, the wife of Emperor Jahangir. It is beautifully conceived in white marble, mosaic and lattice and set a precedent as the first Mughal building to be faced with white marble inlaid with contrasting stones. Sometimes also called 'Baby Taj', it is small, intimate and has a gentle serenity
